

Dear members,

After last month's disappointing news, it's great to start this newsletter with good news. KCL will be on site on 4 August to start the preparation for our new greens. This will mean a large area will be cordoned off and I ask all members to ensure they stay within the designated route into and out of the clubrooms and also take care around Green 1 when playing or practicing. Please also follow any requests that the contractors have.

Please note that commencing 4 August and for the duration of the construction, the online signup sheet will be suspended and members will need to put their name down for a game on the sheet in the back room. We will be limited to 56 players. The Bowls Committee is working hard to ensure that all members get a game. More to come.

The Board have also reviewed the current green fees and will be raising the fees to \$10 per game from the opening of the new greens.

John Scott and Lance Rechsteiner are our new sponsorship officers. They are currently very busy contacting our sponsors to encourage them to sponsor the club for another year. When using our sponsors, tell them you are from the Club, so that they know they are being supported.

I hear that the Trivia Night was a great success and that everyone enjoyed themselves and had a good time. Thank you to the team that did all the hard work so others could have fun.

We recently had our kitchen inspection. It was the best one for years. In fact, it was perfect! That was down to the very hard work that Peter and Patti Hennessy did spending many hours cleaning everything in sight. It was not an easy job. Thank you, Peter and Patti, we are very grateful.

Regards

Susan Gullidge

Chair, Board of Management

Mornington Bowling Club Inc
